

June 29, 2016

United States Senate  
Washington, DC 20510

Dear Senator:

The undersigned organizations, which include a broad cross-section of stakeholders in the housing affordability realm, urge you to co-sponsor “The Housing Opportunity through Modernization Act (HOTMA)” introduced by Senators Menendez, Scott, Coons and Blunt as S. 3083 on June 22, 2016. Co-sponsoring this bill will demonstrate support for the same common sense reforms to federal rental assistance programs that the U.S. House of Representatives passed unanimously in H.R. 3700, also titled “The Housing Opportunity through Modernization Act.” HOTMA represents the best of bipartisan work and compromise. We urge you to cosponsor S. 3083, and support an expedited Senate vote on H.R. 3700.

Our nation faces tremendous housing needs. This legislation is an important step forward to address a number of significant items that have enjoyed broad consensus over the years. There is more to be done to address housing and community development needs, but HOTMA represents solid progress in the right direction. If enacted, this bipartisan bill would build on the effectiveness of federal rental assistance while achieving some modest savings.

The U.S. Department of Housing and Urban Development’s rental assistance programs face difficult budget pressures, and this reform legislation would help state and local agencies more efficiently manage limited funds to better serve families in need. These reforms ease administrative burdens for housing agencies and owners, while delivering fairer and more efficient assistance to low-income families. In addition, the bill provides new tools to preserve affordable housing, reduce homelessness, increase self-sufficiency and expand access to areas of greater opportunity.

Importantly, HOTMA would make these improvements while leaving in place the core characteristics that have helped make federal rental assistance programs effective. The bill’s rental assistance provisions, taken together, also avoid any cost increase, and could modestly reduce the cost of providing the current level of assistance.

Congress has vetted most of the bill’s provisions for nearly a decade as part of earlier proposals that have had broad support in Congress and among stakeholders, but have never become law. We strongly encourage the Senate to move with urgency to pass HOTMA/H.R. 3700 and to send it the President’s desk for enactment.

We stand ready to work with you to help achieve this goal.
