\* The spending proposals disaggregate spending for the public housing capital and operating accounts. Funding to support operating costs includes formula funding and additional resources to be made available based on need. Funding to address capital costs includes formula funding, emergency capital needs, resources to address lead-based hazards, and other funding priorities.

\*\* The president's budget allocates \$100 million for RAD conversions, splitting funding evenly between PBRA (\$50 million) and TBRA (\$50 million) conversions. The administration does not propose lifting the cap on number of units that can be converted under RAD.

^ The budget request provides \$800 million for a new climate initiative to help communities reduce carbon pollution and increase resilience to the impact of climate change. This funding includes a \$100 million set-aside for targeted investments in Native American housing.
