

2019 SRDP Program

Bulletin #2

April 16, 2019

Revisions to the 2019 SRDP Application Manual and Package

Page 23 – Mandatory Design Criteria Item # 54: This requirement is being revised to permit applicants proposing single family dwellings to request a waiver. Language under this heading has been revised to allow:

Revised Language: All HVAC air handlers and hot water heaters must be contained within the conditioned space of the unit/building and may not be located in the attic or crawl space. Within its sole and absolute discretion, SC Housing may grant an exception to this requirement only for 1-4 unit single family dwellings. **To request an exception, the applicant must provide drafts of the building plans to John Thompson at john.thompson@schousing.com for review no later than May 1, 2019.**
