Senate Republicans have not moved with any urgency to prevent 30-40 million people from being evicted from their homes by the end of this year. We have to show them that rent relief cannot wait & that our safety and health are at risk without significant federal intervention.

NLIHC, the Coalition on Human Needs, & other advocates across sectors are working together to collect stories on how the threat of eviction is impacting real people. Please share your story & we will share them with members of Congress, reporters and on social media.
