MCO and Moody’s Investors Service also maintain policies and procedures to address the independence of Moody’s Investors Service credit ratings and credit rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold credit ratings from Moody’s Investors Service and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moodys.com, under the heading “Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy.”

Additional terms for Japan only: Moody’s Japan K.K. (“MJJK”) is a wholly-owned credit rating agency subsidiary of Moody’s Group Japan K.K., which is wholly-owned by Moody’s Overseas Holdings Inc., a wholly-owned subsidiary of MCO. MJJK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJJK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJJK or MSFJ (as applicable) have, prior to assignment of any credit rating, agreed to pay to MJJK or MSFJ (as applicable) for credit ratings opinions and services rendered by it fees ranging from JPY125,000 to approximately JPY250,000,000.

THE FRAMEWORK FOR AN EQUITABLE COVID-19 HOMELESSNESS RESPONSE

Equity Based Decision Making Assessments
What is equity-based decision-making?

Actively deconstructing the processes and structures that perpetuate racism and oppression and, instead, establishing accountability to people most proximate to the issue and position customers of our public systems and programs as decision makers and power-holders within these systems.

Why is it necessary?

Decision-making is always a choice point. Changing behavior requires intentionality, structure, and practice. It is therefore a key universal opportunity to move toward equity.
How does it work?

1. Choose an example of your work
2. Choose the area of your work that’s most applicable (see below)
3. Choose a subsection & take the assessment!
4. Save your personalized recommendations, decide how you’re going to use them, and take another!
Policy Decisions and Strategy: Accessibility and Clarity

The following assessment will walk you through five quick questions that will help to produce a tailored set of equity-based recommendations for implementation, specific to accessibility and clarity in your work! Use an average proposal, policy, or decision-making process as an example to refer to as you answer the following questions.

Your Accessibility and Clarity Recommendations

Based on your answers, we recommend reflecting on the following categories and making the following changes to your accessibility and clarity processes to inform a more equitable decision-making process.

1. **Acronyms:** Ensure all acronyms are defined at the beginning of documents and public-facing resources.

2. **Jargon:** After reviewing for jargon or phrases that aren't clear or easy to understand, send it to a friend, ask someone new to your organization, or in another department to help you review and flag any terms or concepts that are not immediately understandable.

3. **Simplify language:** Ask staff to install Grammarly or a similar tool on their browser or as a plug-in and set the audience to "general," which will automatically flag complicated language and phrasing.

4. **Translation:** Set up a plan for all public-facing announcements and policy documents to be translated into the 4 most common languages used in your community. Google Translate is a
How should we use it?

- Share with your colleagues (it’s applicable beyond homelessness services!)
- Integrate your recommendations into your workflow
