Rutgers University-Newark
U.S. Eviction Filing Patterns in 2020

Peter Hepburn¹,², Renee Louis², Joe Fish², Emily Lemmerman², Anne Kat Alexander², Timothy A. Thomas³, Robert Koehler⁴, Emily Benfer⁵, and Matthew Desmond²

Abstract
The coronavirus pandemic precipitated an economic crisis disproportionately affecting renter households. Attempting to prevent a surge in evictions, policy makers at the federal, state, and local levels extended emergency protections to renters. The authors describe eviction filing patterns in 2020 and analyze the efficacy of eviction moratoria. New filings were reduced dramatically since the start of the pandemic. Between March 15 and December 31, 2020, across sites for which data are available, 65 percent fewer eviction cases were filed than would be expected in a typical year. Extrapolating nationwide, the authors estimate that at least 1.55 million fewer eviction cases were filed in 2020 than in a normal year. The pace at which cases were filed increased in late 2020, however, and the amount of back rent claimed grew considerably. Filing rates exceeded historical averages when protections lapsed. Black and female renters received a disproportionate share of eviction cases filed during the pandemic.

Keywords
eviction, COVID-19, eviction moratorium, racial disparities

https://evictionlab.org/us-eviction-filing-patterns-2020/
1. Large reduction in filings
2. Federal moratoria work

[Bar chart showing data with labeled segments for CARES Act and CDC order]
3. State/local moratoria work
4. CDC order varies in effect
5. National estimate

The ETS covers 1 in 5 renter households
  • Used regression methods to predict filings elsewhere

Non-ETS counties between 3/15 and 12/31:
  • 2020: 927,000 eviction filings
  • Typical: 2,100,000 eviction filings

• 1.55 million fewer cases nationwide
6. Black renters are at high risk
7. Amounts claimed rose
The Eviction Lab is funded by the Russell Sage, JPB, and Gates Foundations, C3.ai Digital Transformation Institute, the Pew Charitable Trusts, and the Chan Zuckerberg Initiative.
Guidance for State & Local Officials on Developing & Implementing Equitable ERA Programs

Mike Wallace
Legislative Director, Community & Economic Development
National League of Cities

NLC & NLIHC
Do’s and Don’ts for ERA
Housing Stability is a Prerequisite for Economic Mobility, Job Security, and Health and Well-Being

- American Rescue Plan asks city leaders to stabilize local government operations, households, and small businesses

- ARP Policy goal to restore employment and fully reopen the economy.

- **Emergency Rental Assistance Program:**
  1. Relies on state and local gov to connect federal rental assistance to residents and landlords.
  2. Rent relief is reaching those in need too slowly, and avoidable set-backs like damaged credit is mounting.
  3. Outcomes for public investments in job-training and workforce decline as a result of housing instability.
Emergency Measures to Contain Coronavirus Harmed Residents

• Measures contain COVID-19 unintentionally resulted in lost wages and other unavoidable harm to millions of families through no fault of their own.

• Those with the lowest incomes have been disproportionately impacted, and racial inequities have intensified.

• Millions of low-income households are behind on their rent and landlords in-turn may be unable to meet their financial obligations.

• The risk is high for increasing homelessness and permanent losses of affordable housing just as jobs and the economy begin to rebound.
Key Principles for Model ERA Programs

Quick Tips and Do’s and Don’ts

Overview of Relief Programs
American Rescue Plan Act
Consolidated Appropriations Act of 2021
Coronavirus Aid, Relief, and Economic Security (CARES) Act

Examples from Model ERA Programs

Additional Resources
Housing Initiative at Penn NYU Furman Center.
**Key Principles for Model ERA Programs**

1. **Center Equity in Design and Implementation**

2. **Prioritize Households with Greatest Needs**

3. **Partner with Trusted Community-Based Organizations**

4. **Simplify Applications and Allow Self-Attestation**

5. **Engage Landlords**

6. **Provide Direct-to-Tenant Assistance**

7. **Incorporate Racial Equity in Performance Measurements**

---

**Quick Tips for Elected Officials**

Principles for Coronavirus Local Fiscal Recovery Fund

1. Use dedicated grants and programs first whenever possible
   • Save Local Fiscal Recovery Funds for gaps and priorities not eligible for other federal and state assistance programs

2. Assess government operations AND community needs
   • Ask valuable staff and stakeholders for help creating a comprehensive needs assessment; be prepared to pivot

3. Prioritize fiscal stability and returning to work
   • Save pet projects for earmarks

4. Maintain records and document success
   • Create long-term information infrastructure for your future leaders

5. Your Congressional Delegation is part of your success
   • Invite Members of Congress to re-openings, ribbon-cuttings, etc...

What we’re tracking

Rental Assistance resources available at: https://nlihc.org/rental-assistance

As of May 3rd, NLIHC is tracking over 900 programs, 300 of which are from the Treasury ERA program. The ERA Treasury program includes: 50 States + D.C., 382 cities/counties, 252 Tribal govs. and 6 Territories/Entities.

Source: NLIHC COVID-19 Rental Assistance Database: https://nlihc.org/rental-assistance
Note: NLIHC continues to update our database on a weekly basis or additional jurisdictions must rental assistance programs in response to the coronavirus. If you are aware of a program not included in our database, please contact research@nlihc.org or nlihc@nlihc.org. Likewise, if you are aware of a program in one database that is no longer active, please let us know. We do our best to maintain accuracy, but cannot guarantee it because of the ever-changing situation. Last updated 5/30/2021.

**Open**

**Not Yet Open**

- Arkansas, Florida, Illinois, New York, North Carolina, North Dakota, Oregon, and South Carolina

*NLIHC updates these numbers each week. If you are aware of a program not included in our database, please contact nnair@nlihc.org or rya@nlihc.org
Initial Observations

• **Self-attestation**
  - Only 31% programs explicitly state that self-attestation is an acceptable substitute for proof of documentation.
  - Self-attestation options for Income and COVID Hardship are more common than for Housing Instability.

• **Direct to Tenant options**
  - Only 17% programs have stated that they will directly issue assistance to tenants if landlords refuse to participate.
  - Some programs state that they will dismiss the application if landlords do not respond.
Thank You!
Field Updates

Erin Kahn
Consultant
All in Washington’s Vaccine Equity Initiative
erin@erinkahnconsulting.com
All In WA is a coordinated statewide relief effort powered by a coalition representing the public, private, nonprofit and philanthropic sectors.

The goal is to address the impacts of COVID-19 on vulnerable populations, especially BIPOC groups and rural and remote communities.

One of the key components of All In WA is a COVID-relief grants fund.

The Fund is guided by a diverse group of 23 advisors to shape the giving priorities and make grant awards.

Over $15m in grants have been made across WA so far. Another $6m+ will be distributed for the Vaccine Equity Initiative.
Vaccine Equity Initiative

- **Goal:** Support equitable distribution of vaccines by providing funding to trusted, community-based organizations with strong relationships to disproportionately impacted communities.

- Flexible funding (up to $50k) for:
  - Education and messaging, including linguistically and culturally specific communications
  - Outreach and registration support
  - Hosting or co-hosting mobile, pop up and vaccination events
  - Transportation and other fixes to mobility or access
Priorities

- Farmworkers and agricultural workers, including meat processing workers
- Immigrants and refugees
- Black, Indigenous and People of color communities
- Low-wage cash economy workers including massage parlor, nail salon, and sex industry workers
- Unsheltered and homeless populations
- Individuals recently released from or still involved in criminal justice and juvenile justice systems
- People with disabilities
- Counties with “below average” rates of vaccination.
What are we learning?

- High degree of variability in uptake by geography (county) and population
- Messaging matters (but there is no single message that works)
- The messenger matters
- People may need multiple touch points to influence their decision to get vaccinated and opportunities to ask questions. It’s personal!
- Focus group data suggests many people are motivated to see their family and friends again
Lessons from grantees

- Lots of opportunity for collaboration such as co-hosting events
- Bringing pop-up events to trusted sites (community-based organizations, churches, public housing communities) has been successful
- "Non-traditional" partners can be promising. Think beyond groups that traditionally have a role in health care or social supports
- Moving from solemn to celebratory with music, art, etc. that will foster a positive experience
The funding context

- Large public sector investment in vaccine efforts, including communications and messaging
- Much less funding available from public sector to support CBOs to do outreach and recruitment in communities where they have established, trusting relationships
- High degree of variability based on public health infrastructure
- Corporate partners can be a good resource to address barriers (such as in-kind rideshare for transportation) or other incentives
Questions?

- Does this match what you are seeing/hearing in your local community to address vaccine uptake?
- What’s worked with your audience, clients, community?
- Contact: grants@allinwa.org

**HB 2877: COVID-19 Emergency Housing Act: Passed**

General Assembly, Governor’s Signature Pending

- **Codifies certain provisions of the State of Illinois’ federally-funded emergency rental assistance program.** The provisions are intended to ensure that people with the lowest incomes and most severe housing needs are able to access the **$566.2 million** in emergency rent assistance to be distributed by the State of Illinois starting in May 2021. Between state and local governments, the total rent assistance available in Illinois will be **$834.7 million**.

- **Requires the sealing of all eviction records between March 2020 and March 2022 upon filing,** with limited unsealing allowed if a judgment is entered and the case is unrelated to nonpayment of rent. Renters should not face permanent housing barriers due to the economic fallout of the COVID-19 pandemic. An eviction record, including even the mere filing of a case, hampers a tenant's ability to secure housing.

- **Requires the sealing of older eviction records if the court finds that doing so is in the interests of justice,** the case is dismissed, the tenant did not breach the lease, or the parties agree to seal the record. This provision sunsets on July 31, 2022.

- **Prohibits tenant screening companies from disseminating a sealed eviction court record** and creates penalties for doing so. This provision sunsets on July 31, 2022.

- **Creates a temporary COVID-19 emergency homeowner and small landlord foreclosure moratorium** by halting judicial sales and orders of possession through July 31, 2021.
HB 2877: Sealing Eviction Cases During Pandemic

• "COVID-19 emergency and economic recovery period" means the period beginning on March 9, 2020, when the Governor issued the first disaster proclamation for the State to address the circumstances related to COVID-19, and ending on March 31, 2022.

• The court file shall be sealed upon the commencement of any residential eviction action during the COVID-19 emergency and economic recovery period. If a residential eviction action filed during the COVID-19 emergency and economic recovery period is pending on the effective date of this Act and is not sealed, the court shall order the sealing of the court file.

• If the court enters a judgment in favor of the landlord, the court may also enter an order to unseal the court file. A court shall order the court file to be unsealed if the action is not based in whole or in part on the nonpayment of rent during the COVID-19 emergency and economic recovery period and other requirements have not been met.
HB 2877: Sealing Older Eviction Cases

• New state law: The court shall order the sealing of any court file in a residential eviction action if: (1) the interests of justice in sealing the court file outweigh the public interest in maintaining a public record; (2) the parties to the eviction action agree to seal the court file; (3) there was no material violation of the terms of the tenancy by the tenant; or (4) the case was dismissed with or without prejudice. This provision sunsets on July 31, 2022.

• Existing State Law: Discretionary sealing of court file. The court may order that a court file in an eviction action be placed under seal if the court finds that the plaintiff's action is sufficiently without a basis in fact or law, which may include a lack of jurisdiction, that placing the court file under seal is clearly in the interests of justice, and that those interests are not outweighed by the public's interest in knowing about the record.
Racial & Gender Analysis of Housing Insecurity Reported in Census Household Pulse Survey

Sarah Hassmer
Senior Counsel, Income Security
National Women’s Law Center
shassmer@nwlc.org
Key Takeaways: March 3-15 Survey

• Black, non-Hispanic women and Latinas were more likely to be in households that have lost employment income since March 2020.
• Asian, non-Hispanic women, Black, non-Hispanic women, and Latinas were more likely to report that they expected their household to lose employment income in the next four weeks.
• Black, non-Hispanic women and Latinas were more likely to be behind on their rent payments.
• Asian, non-Hispanic women, Black, non-Hispanic women, and Latinas were more likely to be behind on their mortgage payments.
• Black, non-Hispanic women and Latinas were more likely to be in households facing food insufficiency.
Employment Impacts

Share Who Reported Loss of Employment Income Since March 2020 and Share Who Expect Income Loss in Next Four Weeks by Selected Demographics (Mar 3 - Mar 15)

- White, non-Hispanic men: 41.9% reported loss, 14.6% expect loss
- White, non-Hispanic women: 41.3% reported loss, 14.0% expect loss
- Asian, non-Hispanic women: 41.5% reported loss, 18.7% expect loss
- Black, non-Hispanic women: 52.7% reported loss, 24.2% expect loss
- Latinas: 59.3% reported loss, 30.8% expect loss

Legend:
- Reported loss of income Since March 2020
- Expect loss of employment income in next four weeks
Housing Impacts

Share Who Reported Being Behind on Rent or Mortgage Payments by Selected Demographics (March 3 - March 15)

</table>
Housing Insecurity Remains

- This data demonstrates the continued importance of eviction moratoria and emergency rental assistance.
- You can pull national and state data for gender or race/ethnicity analysis at https://www.census.gov/programs-surveys/household-pulse-survey/data.html.
- Ex: In CA, 18% of women are behind on rent, compared to 15% of men in late March and 31% of Asian, non-Hispanic, 22% of Black, non-Hispanic, and 17% of Latinx renter households were behind in rent.
- The April 14 – 26 data tables will be released on May 5. Public Use Files for more in-depth analysis will be released two weeks after that.
Addressing Housing Insecurity in the Long-Term

- Women were more likely than men to be housing insecure even before the pandemic, demonstrating the need for the substantial federal investments proposed in NLIHC’s HoUSed campaign to address housing insecurity in the long term.
