SOLUTIONS

- Provide significant resources to build and preserve homes affordable to renters with the lowest incomes through investments in public housing and the national Housing Trust Fund.
- Encourage states and local communities to reform zoning and land use regulations that prevent housing from being built and push up housing costs.
- Bridge the gap between incomes and housing costs by expanding rental assistance so that it is universally available to all eligible households or consider other innovative approaches, such as a fully refundable renters' tax credit.
- Prevent evictions and homelessness by creating permanent tools, such as emergency rental assistance, to help stabilize families in crisis.
- Other federal housing resources, including the Low-Income Housing Tax Credit, should be reformed to better address the underlying market failure that results in the rental housing shortage for extremely low-income households.
