Across New Hampshire, there is a shortage of rental homes affordable and available to extremely low income households (ELI), whose incomes are at or below the poverty guideline or 30% of their area median income (AMI). Many of these households are severely cost burdened, spending more than half of their income on housing. Severely cost burdened poor households are more likely than other renters to sacrifice other necessities like healthy food and healthcare to pay the rent, and to experience unstable housing situations like evictions.

**SENATORS**: Maggie Hassan and Jeanne Shaheen

### Key Facts

- **32,677 OR 21%**
  - Renter Households that are extremely low income

- **-20,358**
  - Shortage of rental homes affordable and available for extremely low income renters
