

Senator Merkley invites your boss to sign on to the FY20 appropriations support letter for **\$3.0 billion for McKinney-Vento Homeless Assistance Grants and \$24 billion for Tenant-Based “Section 8” Rental Assistance.**

Communities around the country have made significant progress toward ending veteran and chronic homelessness—and in decreasing family homelessness—largely due to funding that Congress has made available through McKinney-Vento Homeless Assistance Grants and Section 8 Housing Choice Vouchers. However, there is still much work to be done. The 2018 Annual Homeless Assessment Report to Congress found that on any given night, over 552,830 people were homeless in America. Over 180,000 of those were in families, including children, and over 36,000 were unaccompanied homeless youth.

This letter is supported by National Alliance to End Homelessness. If you have any questions or would like to sign on, please contact Meredith Booker at Meredith_booker@merkley.senate.gov or 4-7657 by **COB Monday, April 1st**.

Signers from FY19: Senators Merkley, Gillibrand, Schatz, Feinstein, Blumenthal, Kaine, Shaheen, Murphy, Menendez, Baldwin, Van Hollen, Cantwell, Stabenow, King, Booker, Duckworth, Brown, Klobuchar, Markey, Peters, Hassan, Cortez Masto, Nelson, Whitehouse, Cardin, Coons, Sanders, Hirono, Casey, Wyden, Warner, Heinrich, and Durbin

April XX, 2019

The Honorable Susan Collins
Chairman
Subcommittee on Transportation,
Housing, and Urban Development
Committee on Appropriations
United States Senate
Washington, D.C. 20510

The Honorable Jack Reed
Ranking Member
Subcommittee on Transportation,
Housing, and Urban Development
Committee on Appropriations
United States Senate
Washington, D.C. 20510

Dear Chairman Collins and Ranking Member Reed,

As you develop the Fiscal Year 2020 Transportation and Housing and Urban Development Appropriations bill, we respectfully request that you provide \$3.0 billion for McKinney-Vento Homeless Assistance Grants and \$24 billion for Tenant-Based “Section 8” Rental Assistance. Strong support for these two vital programs is critical to maintaining the progress already made by proven solutions, and continuing the bipartisan effort to fight homelessness across the country.

Communities around the country have made significant progress toward ending veteran and chronic homelessness—and in decreasing family homelessness—largely due to funding that Congress has made available through McKinney-Vento Homeless Assistance Grants and Section

8 Housing Choice Vouchers. McKinney-funded rapid re-housing has also proven to be an effective intervention to get youth off the streets and on the road to self-sufficiency.

However, there is still much work to be done. The 2018 Annual Homeless Assessment Report to Congress found that on any given night, over 552,830 people were homeless in America. Over 180,000 of those were in families, including children, and over 36,000 were unaccompanied homeless youth. When children and youth experience homelessness they are at greater risk for mental and physical health issues, and may experience long-term academic challenges. Families experiencing homelessness struggle to maintain employment, and those fighting health, mental health, and addiction issues lack the housing stability needed to adequately address their problems.

We urge the committee to provide \$3.0 billion to McKinney-Vento Homeless Assistance Grants in FY2020. This would allow HUD to fund effective rapid re-housing, permanent supportive housing, and other crisis response programs to the capacities needed to build on demonstrated progress toward ending homelessness. This would bring us closer to ending homelessness for families, unaccompanied youth, and individuals.

Providing \$24 billion for Section 8 TBRA, including \$21.4 billion to renew all current vouchers and \$2.0 billion for administrative fees, would ensure that every single voucher currently in circulation will be renewed for FY2019 and the program continues to function. The request also includes \$300 million for 30,000 new housing vouchers to reduce homelessness and help families at risk of having their children placed into foster care due to a lack of affordable housing. Assisted households' have an average income of just \$14,900, well below the federal poverty line; and nearly all of them include the elderly, people with disabilities, or children. Research shows that housing vouchers reduce poverty, homelessness, and other hardships, and can provide a platform for low-income children to improve their lives over the long term.

We strongly urge the subcommittee to provide robust funding for McKinney-Vento Homeless Assistance Grants and for Section 8 TBRA to help ensure that every American has a safe, stable place to call home. Thank you for considering this important request and for your continuing leadership in helping to prevent and end homelessness in the United States.

Sincerely,

Jeffrey A. Merkley
United States Senator
