

September 22, 2023

The Honorable Chuck Schumer  
U.S. Senate  
Washington, DC 20510

The Honorable Kevin McCarthy  
U.S. House of Representatives  
Washington, DC 20515

The Honorable Mitch McConnell  
U.S. Senate  
Washington, DC 20510

The Honorable Hakeem Jeffries  
U.S. House of Representatives  
Washington, DC 20515

To Majority Leader Schumer, Minority Leader McConnell, Speaker McCarthy, and Minority Leader Jeffries:

**W**e, the undersigned 1,884 organizations, call on Congress to provide the increased investments in HUD's affordable housing and homelessness programs in fiscal year (FY) 2024 necessary to ensure renters with the lowest incomes have affordable, quality places to call home.

Though the "Fiscal Responsibility Act" constrains the amount that can be invested through the FY24 spending bill, it is essential that affordable housing and homelessness assistance programs receive increased funding every year just to maintain services. Congress must use every opportunity - including the annual appropriations process - to advance proven solutions for ensuring affordable, stable homes are available to everyone in need. While the below investments will not, on their own, fulfill the goals of NLIHC's HoUSed campaign to ensure all renters with lowest incomes have an affordable place to call home, they are crucial to helping millions of people find and maintain safe, stable housing.

In any final FY24 spending bill, Congress must:

- 1. Bridge the gap between incomes and housing costs by providing the Senate's proposed funding for Tenant-Based Rental Assistance (TBRA) and Project-Based Rental Assistance programs.** These programs are crucial tools for helping people with the lowest incomes afford decent, stable, accessible housing, and both programs have proven track records of reducing homelessness and housing poverty. However, due to decades of chronic disinvestment by Congress, only one in four households who qualify for assistance receives it.

While both the House and Senate draft FY24 spending bills would provide increased funding for these vital programs, it is unlikely that the House's proposed funding levels would be sufficient to renew all existing contracts. The Senate bill would provide enough funding not only to renew existing voucher contracts but to expand vouchers to an additional 4,000 households.

- 2. Expand and preserve the supply of rental homes affordable to people with the lowest incomes by ensuring full funding for public housing operations and repairs and providing the House's proposed funding for Native housing.** Public housing plays a vital role in providing deeply affordable housing for people with the lowest incomes. However, the federal government has underfunded public housing for generations, allowing this valuable asset to fall into disrepair and exposing residents - including young children - to hazardous and unhealthy living conditions.

Both the House and Senate bills propose funding cuts to the Public Housing Capital Fund, despite a more than \$70 billion capital needs backlog in the public housing portfolio. While the Senate bill would provide increased funding for Public Housing Operations - which the House bill would cut - it is crucial that these programs receive increased funding in FY24 just to maintain the current level of services.

Likewise, Native housing investments are urgently needed to help alleviate the affordable housing crisis on tribal lands. While both the House and Senate bills would provide increased funding for native housing programs, the House spending bill would provide a more than 40% increase from FY23-enacted levels to the Native American Housing Block Grant program.

- 3. Provide emergency assistance and services to people experiencing homelessness and those at urgent risk of homelessness by allocating the Senate's proposed funding for Homeless Assistance Grants.** HUD's Homeless Assistance Grants (HAG) program provides vital funding to respond to the needs of people experiencing or at risk of homelessness, including funding for prevention, emergency shelter, rapid rehousing, and permanent supportive housing. In recognition of the importance of these funds - and the growing need for assistance - both the House and Senate bills would provide increased funding for HAG in FY24, though the Senate bill would provide significantly more.
- 4. Strengthen and enforce renter protections by protecting funding for legal assistance to prevent evictions, as proposed in the Senate bill.** The Senate bill maintains \$20 million in funding for a new grant program for legal assistance to prevent evictions. Legal assistance plays a crucial role in helping tenants at risk of eviction stay in their homes and mitigating the consequences of eviction records and is a crucial tool for addressing the power imbalances between renters and landlords that put renters at risk of housing instability. The House proposal would eliminate funding for this promising new program.

Increased investments in FY24 alone will not be sufficient to end the affordable housing crisis, which will require long-term, large-scale, sustained federal investments and anti-racist reforms to existing programs. However, reductions in federal appropriations for critical housing programs that serve people with the lowest incomes will only exacerbate the crisis, pushing more people and families into homelessness.

Congress must not miss this important opportunity to protect HUD programs and the millions of people and families who rely on them for safe, stable, affordable housing. We urge you to ensure that any final FY24 spending bill supports increased funding for these vital affordable housing and homelessness programs.

Sincerely,
