June 3, 2024

The Honorable Chuck Schumer  
U.S. Senate  
Washington, DC 20510

The Honorable Mike Johnson  
U.S. House of Representatives  
Washington, DC 20515

The Honorable Mitch McConnell  
U.S. Senate  
Washington, DC 20510

The Honorable Hakeem Jeffries  
U.S. House of Representatives  
Washington, DC 20515

To Majority Leader Schumer, Minority Leader McConnell, Speaker Johnson, and Minority Leader Jeffries:

We, the undersigned 1,912 organizations in the national HoUSed campaign, call on Congress to take bold action to advance anti-racist housing policies and provide the large-scale, sustained investments and reforms necessary to ensure that the lowest-income and most marginalized renters have an affordable place to call home. We urge you to use every opportunity - whether through the appropriations process or stand-alone legislation - to advance proven solutions at the scale necessary to ensure that affordable and stable homes are universal to everyone in need.

To achieve this ambitious goal, Congress must:

1. **Bridge the gap between incomes and housing costs** by expanding rental assistance to every eligible household.

2. **Expand and preserve the supply of rental homes** affordable to people with the lowest incomes.

3. **Prevent evictions and homelessness** by creating ongoing resources to provide emergency rental assistance to households in crisis.

4. **Strengthen and enforce renter protections** to address the power imbalance between renters and landlords that puts renters at risk of housing instability.

America is in the grips of an affordable housing crisis, most severely impacting our nation’s lowest-income and most marginalized people, including seniors, people with disabilities, families with children, and other individuals.

Nationally, there is a shortage of **7.3 million homes** affordable to households with extremely low incomes. For every 10 extremely low-income renters, there are fewer than 4 homes affordable and available to them. There is no state in America that has enough rental homes for its lowest-income residents.

Housing costs are out of reach for too many of America’s lowest-income renters. Renters today need to earn **$32.11 an hour** to afford a modest, two-bedroom apartment, or $26.74 an hour to afford a modest, one-bedroom apartment. In comparison, the average renter earns just $23.18 an hour and 14 of the 20 largest occupations pay median wages below what it takes to afford a modest one- or two-bedroom apartment.

Without affordable options, **10 million households** with the lowest incomes spend at least half of their limited incomes on rent, leaving few resources to put groceries on the table, cover medical costs, or meet...
their other basic needs. These households are always just one emergency or unexpected expense away from falling behind on rent and facing eviction, or in worst cases, homelessness. Because of the housing crisis, 653,000 people in America experience homelessness on any given night, and millions more are at risk.

Because of long-standing historical and persistent systemic racism in housing and other sectors, Black and Indigenous people are most harmed by the housing crisis and experience homelessness at far higher rates. Black individuals represent 13% of the general population, but they account for 37% of people experiencing homelessness and more than 50% of homeless families with children. Native Hawaiians, Pacific Islanders, and American Indians/Alaska Natives experience the highest rates of homelessness. This harm is compounded for women of color. These are the same households most impacted by the pandemic and the economic fallout, and they are now even more precariously housed.

Despite the clear need, Congress only provides enough resources to help one in four eligible households with their housing costs, leaving the rest to fend for themselves. Families wait for years - even decades - on waiting lists. Millions of households are one financial shock away from economic hardship that could quickly spiral out of control into evictions and, in worst cases, homelessness.

Ensuring everyone has an affordable and stable home will have broad, positive impacts on racial equity, education, healthcare, economic mobility, and poverty. Housing justice is central to advancing racial equity because racial disparities in education, income, wealth, employment, and health are driven in large part by racial segregation and discrimination in housing. Housing can help close the education gap because children learn better and are more likely to graduate when they live in a stable, affordable home. A quality affordable home is a prescription for good health and has been linked to prevention of long-term health problems and promotes healthy, productive lives. Housing supports economic mobility, allowing low-income people to climb up the income ladder and achieve financial stability. By providing housing assistance, we can reduce poverty, increase stability for households, and help avert homelessness, institutionalization, and incarceration.

More than ever, we need your leadership to advance bold policies to ensure that people with the lowest incomes and the most marginalized people have a stable, affordable home.

Sincerely,
National and Multistate Organizations
